

We firmly believe that it is imperative for our clients, and in particular our clients who reside abroad, to fully understand and agree to legal services which they can expect to receive as well as the conditions under which those services will be provided by our firm.

We therefore provide our clients with up to date information on changes in real estate, inheritance, tax and administrative laws which may affect their property and business interests in Greece.

It is important for us to help our clients protect their Greek investments and to ensure that our clients plan for the future of those investments.

"We are dedicated to finding solutions to our clients' problems before those problems find our clients."
